

## Lab-In-A-Box™

### A Complete Solution to Your Hands-On Training Needs

Innoved Institute, a leader in hands-on training, education, and cadaveric tissue industries, now provides a complete customized solution for your company's unique training needs - out in the field. The **lab-in-a-box™** program has been developed by Innoved to meet the needs of field staff that need to provide tissue based product trainings on a small scale basis for physicians and health care professionals. No need to wait for a regional training course for your clients to experience your products. Bring the lab to them.

Company representatives need a convenient, safe, and efficient way to better help customers experience the benefits of their products. Innoved Institute provides a client customized **lab-in-a-box™** for field staff that takes care of everything needed for a highly productive demo, training, or education session. Field staff can focus on customers as opposed to lab logistics or specimen issues.

### What You Need, When You Need It, and Where You Need It!

Innoved's **lab-in-a-box™** service takes care of everything needed to run a successful and productive lab. This includes providing serologically tested tissue segments and paperwork, Personal Protective Equipment (PPE's) for all attendees, disposables, client specific instrumentation, cleaning and packing supplies, tissue return kits, company marketing materials, and any other items requested by our clients. This is all packed into an insulated container and shipped all together so that everything arrives on time right where you need it.

We handle all logistics (round trip shipping), tissue disposition, and we provide foolproof instructions for field staff. Innoved provides you a one stop shop for all your needs to have a successful experience.

Give us a call at 623-748-3311 or email us at [info@innovedinstitute.com](mailto:info@innovedinstitute.com) for more information.

*"Innoved's lab-in-a-box is an invaluable tool for physicians and staff. It creates credibility and a level of comfort for physicians to use our products and procedures"*

# Lab-In-a-Box™ and More..

## Innoved's Extended Services

Innoved is your “go to” organization for all lab-in-a-box™ needs, but we do much more ...

Innoved has built its reputation on providing the highest quality cadaveric tissue to customers for years. Our model allows us to always have the tissue you need, as much as you need, when you need it – we guarantee it!

Innoved offers full service escort and technical staffing for labs throughout the country at any facility or location. We bring the tissue, equipment, supplies, and handle all clean-up and tissue disposition. We have relationships with bio-skills facilities throughout the country (some exclusively) that allows us to handle all of your needs and help you secure the venues that best suit your organization. We even own a truck-based mobile lab (4 stations) for use throughout the US and Canada!

This picture shows a typical lab-in-a-box™ configuration for a 1 station lab with 1 specimen.

## Partner in Business

Innoved's motto is "*Better Practice, Better Outcomes*". We believe that partnering with our customers provides the best opportunity for all involved in healthcare to achieve improvements in positive patient outcomes.

Whatever your needs are for hands-on procedure-based medical education and training, our team of highly experienced professionals will help you obtain a higher impact at a lower cost. Our goal is to help you obtain "*better outcomes*" by helping your course participants obtain hands-on education and training so that they gain new skills or improve their existing skills for a "*better practice*".

Contact us today so that together we can build a customize solution for all of your customer education and training needs.
